The mark & wordmark

Logo

The Butler Button mark is a silver-framed deep-violet tile carrying a white serving cloche, a peacock silhouette, and a white gloved hand — the butler serving experiences.

Source vector: proposed/assets/logo.svg · 512×512 · corner radius 122 on the tile. Displayed with a 9px radius at nav size.

LOGO COLORS

Tile / peacock	#2B1B52	Deep indigo-violet
Frame	#C9C9D2	Silver-gray border
Cloche / hand	#FFFFFF	White

Wordmark

Set as **ButlerButton** — "Butler" in the foreground text color, "Button" in the indigo accent. Full attribution reads *Butler Button by VELTM*.

CLEAR SPACE & USAGE

Keep clear space around the mark equal to the height of the cloche knob. Do not recolor the tile, stretch the mark, or place the light wordmark on low-contrast backgrounds.

Legacy live-header mark. The current public site header still carries the earlier gradient logo — a purple-to-gold sweep with a magenta accent. Those colors are documented on the palette page under *Legacy accents* so the transition to the violet mark above is intentional, not a mismatch.

Palette

Indigo is the signature accent across the whole experience; the neutral range is a dark, Apple-inspired scale that carries most surfaces and text.
